Message to People I'd like to Connect With

Hello _____!

I finally got my LinkedIn back in gear and am currently building and rebuilding my network. Specifically with people I respect and enjoy the company of.

If anything, I mostly want to thank you for _____.

On a separate more LinkedIn flavored note… I'm always looking for opportunities, I have moved onto web development and am currently looking for work. If you know anyone that needs a front-end or full-stack developer I'd appreciate anything you may have!

If not, no worries. I do want to reconnect with a lot of people and I put you high on that priority list.

See you on the platform,

- Payton

People I want Recommendations From
- Mark Ohnsman (current instructor)
- Rick Munster (boss from last job, I already have this)
- Kevin Kelly (professor from BYU)
- Quint Randle (professor from BYU, taught me most of my Adobe knowledge)
- Kevin Kjar (mentor and personal friend from youth program)

List of people you connected with your github
- I have some stage fright about this… I did not connect with anyone. I have decided to bite the bullet on this requirement.
